

Joyn

Ronan & Erwan Bouroullec, 2002

Joyn Plattform and Single Desk

Joyn is more than just office furniture. Joyn is a management instrument in an era of a changing work culture because Joyn combines a variety of room functions on one single level: the platform. Its mobile and modular structure spontaneously adapts to the changing requirements and technologies. Joyn reflects the dynamism of the modern office. The room for every workstation is given flexibility.

On this basis Joyn gives office planning brand-new perspectives. One and the same configuration support both a high and a low usage density.

The useful accessories, as well as the cleverly designed electrification and cable management solutions, make Joyn a highly flexible system that can be easily reconfigured time and again. Single Desk, Single and Conference Bench or micro-architectural additions complete the range.

Ronan & Erwan Bouroullec

The brothers Ronan and Erwan Bouroullec live and work in Paris. Their field of work spans from small articles of daily use through to architecture projects. They have worked with Vitra since 2000 and have contributed numerous designs to both the office and home collections.

JOYN PLATFORM TABLE TOP

Table top in melamine soft light

Melamine resin-coated table top, 3 mm ABS edge,
Thickness: 25 mm

Table top in light oak veneer

Table top with 2.5 - 3 mm wood veneer lipping, thickness: 25 mm

Side screen: Screen with pin board for lateral separation of individual workstations. ABS as the base and core material for the lateral screen. Both sides fabric-covered and fixed.

Side wall: Wall with pin board for lateral separation of individual workstations. OSB (Oriented Strand Board) core material covered and glued on both sides with fabric.

Screen with pin board: Screen with pin board for lateral separation of individual workstations. Core material made of high-density tri-ply high-grade fibreboard (conforms to EN 312) in the thickness FPY24. Both sides fabric-covered and fixed. Circumferential platform edge made of plastic.

Storage (swivel shelf): Central swivel shelf, prepared for attaching to the covers of the cable channels. HPL filing tray (12 mm), white with black edge and a swivel tray holder.

File box: Central organising tools, prepared for attaching to the multifunctional covers. The file boxes are made of 1 mm sheet steel with textured powder coating in soft light.

Desk blotter: Desk blotter made of foamed polyurethane, with catch to prevent slipping, in basic dark or mauve grey. Dimensions: W700 x D510 mm

Flat cover

Without electrification and organising tools
Possible areas of use: Meeting area at the platform.

Flat multifunctional cover

With electrification and organising tools
Possible areas of use: Meeting area at the platform, non-territorial workstations.

High multifunctional cover

With electrification and organising tools
Possible areas of use: territorial and non-territorial workstations.

Easy Access multifunctional cover

With electrification in the cable channel and organising tools.
Simply stow away excess cable in the cable channel behind the magnetic covers. Possible areas of use: territorial and non-territorial workstations.

Technical beam

With electrification in the cable channel and organising tools. Sheet steel covers can be slid aside for access to cable management, excess cable can be simply stowed in the cable channel. Possible areas of use: territorial and non-territorial workstations.

Joyn Single Desk

Ronan & Erwan Bouroullec, 2002

Joyn Single Desk

The height-adjustable Joyn Single Desks are designed for individual users. Optional screens for the work surface provide a private area.

Single Desk and textile screens
The Single Desk is available in two table sizes, 160 x 80 and 180 x 90 cm, and is height-adjustable from 680 mm to 780 mm. The power and data channel is prepared for a triple socket. Textile screens are available in two different heights for use with the Single Desk: 45 cm high as a screen and 65 cm high as a modesty panel. The textile screen can be attached to the Single Desk to isolate the users from their surroundings.

Basic material for table tops

- **Description:** High-density three-ply fine-quality particle board made in conformity with DIN EN 312.
- **Table top thickness:** approx. 25 mm
- **Safety:** All corners and edges are rounded. Emission figures for the tops are significantly lower than the statutory permissible level set for ecologically friendly emission category E1.

Joyn Single Bench

Ronan & Erwan Bouroullec, 2002

Joyn Single Bench

The Single Bench is available in two widths and depths: 240 x 100, 240 x 120, 320 x 100, 320 x 120 cm. The power and data channel is prepared for four triple sockets (two to the left and two to the right). The base consists of two single legs and can be adjusted for levelling out on

uneven floors. The Single Bench is the personal work platform for decision-makers. The Joyn Conferencing Bench is suitable for meetings.

Basic material for table tops

- **Description:** High-density three-ply fine-quality particle board made in conformity with DIN EN 312.
- **Table top thickness:** approx. 25 mm
- **Safety:** All corners and edges are rounded. Emission figures for the tops are significantly lower than the statutory permissible level set for ecologically friendly emission category E1.

vitra.

Joyn Hut

Joyn Hut is a ceiling-like arch construction with functional elements that define and structure the room. The Hut has a width of 440 cm, a depth of 250 cm and a height of 221 cm.

It can be fitted with the option of side curtains in the widths of 90 cm or 118 cm and with end curtains in the width of 173 cm. Clothing hooks, newspaper holders and a whiteboard can be hung on the cross beams.

Side curtain

Curtain to cover the side of the Hut made of white netting. Can be retrofitted. A maximum of two curtains of the same size can be hung next to each other. Curtain rod (L2500 mm) made of tubular steel in powder-coated soft light.

End curtain

Curtain to cover the open sides of the Hut in white netting.
Can be retrofitted. A maximum of two curtains per open side can be hung next to each other.

Joyn Hut is a ceiling-like arch construction with functional elements that define and structure the room.

Translucent curtains provide a private area.

Accessories: Clothing hook, newspaper holder, whiteboard with pen holder, flipchart holder
