MedaSlim

www.vitra.com/medaslim

Developed by Vitra in Switzerland
Design: **Alberto Meda**

MedaSlim is a universal visitor’s chair made from robust materials that offers high sitting comfort. The elegant and light-looking chair can be used where comfortable sitting for long periods of time is needed, e.g. offices, conference and meeting rooms, auditoriums, restaurants and cafés. MedaSlim is a perfect addition to the office chairs of the Meda Collection.

Comfort

The curved, flexible backrest frame, seat shell and front legs are cast from one piece, and adjusts itself to the user’s body movements. Together with the use of air-permeable net weave, the chair facilitates comfortable sitting and free movement for long periods of time.

Extended area of use

MedaSlim can be stacked, connected into rows and numbered, which makes it also suitable for very large seating arrangements.

Ecology

MedaSlim has been awarded the “Blue Angel” environmental seal and it is GREENGUARD certified. The chair is made of up to 36% recycled materials and can be re-recycled up to 92%.

The elegance of MedaSlim is enhanced by its net weave backrest.

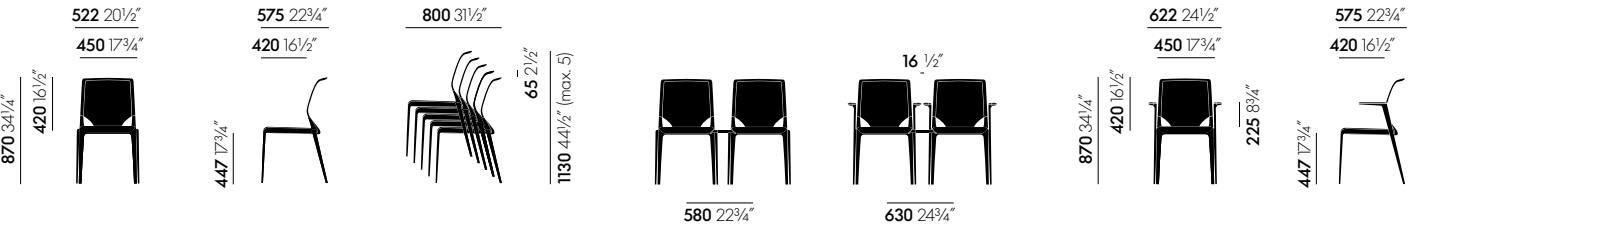

Up to 5 MedaSlim chairs with chromed back legs can be stacked on top of each other.

Chairs with row connectors, row numbers and seat numbers are available upon request.

Dimensions

All measurements are in mm and inches, pursuant to EN 1335-1
