

Anisha, table design Studio Lievore Altherr Molina 2011

FOSCARINI

Like a fluid and enveloping frame, Anisha outlines an empty space, defines it and fills it with its light, producing a magic sensation. The desire to emphasize its plastic, dynamic shape, its balance of full and empty spaces, determined the need to hide the light source within it. This is why the Led technology, with its minimal bulk, was chosen for the lamp, with a touch switch that is also integrated in its shape and responds to the simple touch of a finger.

Available in two sizes and two colours, pure white that blends with the space and red for a decisive, recognizable presence, Anisha is suitable for a wide range of settings, environments and uses. In the entrance, in a lounge, bedroom or on a desk, with its light spirit and unmistakable identity.

Anisha, table technical info

FOSCARINI

Description

Table lamp with semi-diffused direct down light. Diffuser with incorporated LED consisting of two joined liquid coated injection moulded ABS shells. Die cast zinc alloy ballast. The touch dimmer switch is inserted at the base of the diffuser and is designed to switch it on off and to adjust the light intensity. Electronic transformer on plug, transparent electrical cable.
