## Cirrus 3 Iron Steamer

Cirrus 3 Iron Steamer is a hybrid between a steamer and an iron, making it possible to steam your clothes any way you prefer.

It will make your clothes wrinkle-free, smooth and appealing in no time.

The hot steam also reduces bad smells and kills bacteria, making it a great alternative to doing laundry. Depending on how you steam, you can achieve either a pressed or a more natural look with this Iron Steamer.

## Features

### A Hybrid Between a Steamer and an Iron

Cirrus 3 Iron Steamer has an ironing plate that heats up to the same heat level as level 1 on an iron. This plate improves the steam quality, helps dry the fabric and can give your clothes either a pressed or a smooth look.

### Minimalistic Design Object

Cirrus 3 Iron Steamer represents the ideal balance between functionality and esthetics. Its unique geometrical silhouette and selected design elements fits right into a modern home.

### High Performance

Cirrus 3 Iron Steamer heats up in only 25 seconds and has a high and steady steam pressure. The convex shape and textured surface of the ironing plate are designed to enhance the friction between the mouthpiece and the fabric.

### Stand Up/Lie Down Function

When not in use, the Cirrus 3 Iron Steamer can be placed in an upright standing position, or, thanks to the protection brim, it can be laid down on any flat surface.

### On/Off Switch

Cirrus 3 Iron Steamer has an on/off switch so you easily can turn your steamer on and off. Leave the steamer plugged in while not in use and save time.

### Steam Button

Press the steam button while steaming in order to save water.

### Water tank

Cirrus 3 Iron Steamer has a 90 ml vertical water tank that slides into position using magnetic attraction. The tank provides a constant pressure regardless of the amount of water left. Enough water to steam approximately 3 garments.

### Energy-Efficient

Cirrus 3 Iron Steamer is energy-efficient and runs on 1200W only.

### Safety

The steamer will automatically power off after 30 minutes of being idle. Cirrus 3 is also equipped with an enlarged oval hole on the ironing plate, ensuring that the steamer won't suddenly jet out hot water.

### Small and Neat – Ideal for Traveling

In comparison to a home-steamer, a hand-steamer is perfect to bring on travels. Cirrus 3 Iron Steamer is smaller than a regular hand-steamer and takes up less space in your home, suitcase or hand luggage.

### Wearable Ironing Tool

Wear the ironing tool to press the fabric against the ironing plate while steaming.

### Mouthpiece Protection Cover

Use the mouthpiece protection cover when the steamer is not in use.

## How to Use

Steaming your clothes with Cirrus 3 Iron Steamer is not difficult. You will quickly get the hang of it and find your own way.

### Steaming from The Outside

The most common steaming technique. For a professional result, make sure to grab the fabric's bottom edge and press the steamer against the fabric. Use the wearable ironing tool that is heat protected and press the fabric against the heated ironing plate while steaming.

### Steaming from The Inside

A useful technique for removing creases on shirts, blouses and t-shirts. Grab the hem to stretch out the fabric and slowly slide the ironing plate from the garment's inside. Please keep in mind that the steam is hot and that the ironing plate on a Cirrus 3 Iron Steamer is hot like an iron.

### Wearable Ironing Tool

Use the wearable ironing tool as a glove to press the fabric with the steamer. This heat protection tool is great for smoothing out tough wrinkles and is also a great tool when aiming for a pressed look. Suitable for shirt collars, cuffs, pockets and bottom of a shirt or a blouse.

### Use Like an Iron

Cirrus 3 Iron Steamer can also be used like an iron. Use a towel as a base instead of an ironing board and press the steamer against the fabric. Great when you want a pressed effect.

## Water and Water Quality

Cirrus 3 Iron Steamer is equipped with limescale traps (small pockets on the inside) that minimize the risk of limescale clogging the steamer. However, to make your Cirrus 3 Iron Steamer last longer, please read the following recommendations below.

If you live in an area with hard water, we recommend using:

- Steamery's Steam Water
- Bottled or filtered still water
- Distilled water
- Battery water

If you live in an area with soft water, we recommend using:

- Regular tap water or any kind of distilled water

## Specifications

Weight: 0,857 kg

Dimensions: 24,65x14x8 cm

Power voltage and Frequency:

EU, CN, IL, UK, CH, KR: AC220-240V,  
50-60Hz, 1200W

US, CA, TW: AC110-120V, 50-60Hz, 1000W

JP: AC100V, 50-60Hz, 1000W

Water Tank: 90 ml

Woven Fabric Cord: 2,3 m

Warranty: 1 year

Article Number: See article number list

EAN Codes: See EAN code list

Certificates: CE, CB, ROHS, PSE, CQC, cTUVus

## Materials

Body: Recyclable PC plastic

Protection Brim: Recyclable PBT plastic and  
glass fiber

Water Tank: Recyclable ABS plastic and  
recyclable PC plastic

Ironing Plate: Die cast aluminum

Electric Cord: Woven fabric

Packaging: Recyclable cardboard

## Pilo 2 Fabric Shaver

Many consider clothes or home textiles to be worn out because of lint and pilling. But by simply shaving off the pills with a fabric shaver, your textiles will appear as new again.

Pilo 2 Fabric Shaver is gentle yet effective and removes lint and pilling from all kinds of materials.

## Features

### High Performance

With 6 precision razor blades, a strong engine and a 5 cm shaving area, Pilo 2 Fabric Shaver is stronger and more effective than many fabric shavers on the market.

### Works on Delicate Materials

Pilo 2 Fabric Shaver is gentle and works perfectly on all kinds of wool, cashmere, merino and alpaca.

### Smart Air Flow

The rotation of the razor blades in Pilo 2 Fabric Shaver does not only remove pilling, but also works as a suction fan to attract the pilling on a damaged textile surface. The air flows both vertically and horizontally. The vertical flow works to draw in the pilling through the

perforated razor cover and the horizontal flow helps to form a ball of the fuzz. This new smart technology makes it easier to remove pilling and to clean the machine after use.

### Minimalistic Design Object

Pilo 2 Fabric Shaver represents the ideal balance between functionality and esthetics. Its unique geometrical silhouette and selected design elements fits right into a modern home.

### USB-C Charger

Pilo 2 Fabric Shaver is charged by USB-C and works worldwide. The fabric shaver can be used for 2 hours when fully charged. Pilo 2 Fabric Shaver also enables shaving while it's being charged.

## How to Use

To get pill and lint-free presentable clothes in no time, simply place the garment on a flat surface and gently swipe, do not push, the nozzle over the fabric.

Pilo 2 Fabric Shaver works perfectly on both clothes and home textiles like knits, coats, scarfs, socks, sofas, armrests, and blankets. It works on all kinds of materials, even the most delicate, and is ideal to bring on travels.

## Specifications
